

## Monoclonal Antibody to C Reactive Protein (CRP)

RMA03639-C 100ug

### **[ PROPERTIES ]**

**Source:** Monoclonal antibody preparation

**Host:** Rabbit

**Purification:** Protein A and Protein G affinity chromatography.

**Traits:** Liquid

Concentration: 2mg/ml

Ig Isotype:IgG

**UOM:** 100µg

**Cross Reactivity:** ELISA,CMIA,CLIA,FCM

**Applications:** ELISA

### **[ IMMUNOGEN ]**

Immunogen: Recombinant protein of CRP.

### **[ APPLICATIONS ]**

Optimal working dilutions must be determined by end user.

### **[ FORMULATION ]**

**Form & Buffer:** Supplied as solution form in 0.01M PBS, pH7.4.

### **[ STORAGE AND STABILITY ]**

**Storage:** Avoid repeated freeze/thaw cycles.

Store at 4°C for frequent use.

Aliquot and store at -20°C for 12 months.

**Stability Test:** The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less

than 5% within the expiration date under appropriate storage condition.

**[ IDENTIFICATION ]**

**[ IMPORTANT NOTE ]**

The kit is designed for research use only, we will not be responsible for any issue if the kit was used in clinical diagnostic or any other procedures.
